Re: Substance Abuse Assessment for Jacob Stallings

Dear Mr. :

I performed a basic substance abuse assessment for Mr. Stallings in reference to h__ pending OVI charge. This assessment included the administration of: a SASSI-3, an AUDIT, a depression screening, and a clinical interview. The following are my findings and recommendations

Substance(s) of Concern: alcohol

SASSI-3: dependence = ; abuse =

AUDIT: score=__; indicates no apparent problem alcohol use

DSM/Other Substance Related Concerns:

Depression Screening: no clinically significant concerns reported

Clinical Interview/Summary:

DIAGNOSIS in reference to substances: 305.00 (alcohol abuse)

Recommendations: 1) Education, recommend 9 hrs. of Ohio Health's Drug/Alcohol Awareness Series (contact 614-566-3700); 2) Counseling, recommend 6-8 sessions (frequency if needed) with a professional substance abuse counselor; 3) Prevention Planning, recommend 5 sessions with a substance abuse professional; frequency of once per month; 4) Monitoring, recommend 6 months of monitoring with same counselor after initial counseling completed, meeting frequency at discretion of counselor; 5) If another negative consequence is incurred as a result of any substance use it is recommended _____ seek further evaluation and follow all treatment recommendations; 6) Abstinence ; 7) Drug Testing, recommend

Mr. Stallings has signed a release to communicate the results of this assessment to you. Feel free to contact me should you have any questions about this assessment.

Sincerely,

Jessica Schoenberger, MSW, LSW, CDCA
